

PURPUR IN JEANS 2016

PURPUR IN JEANS

PURPUR IN JEANS is a „classical“ tribute to all genres that have to bear comparison with the so-called serious music – a tribute to the high-quality popular music and other traditional pieces from all over Europe. A melange deriving from classically educated musicians and virtuous street musicians, which performs a programme that was arranged especially for purpur. Virtuous “world music” instrumented and interpreted in a totally new way! A unique „orchestral language“ – well beyond cross over!
